out-of-state hospital are set annually using the Federal Register that applies to the federal fiscal year beginning October 1 of each year issued prior to the reimbursement period. The inpatient CCR is calculated using the sum of the statewide average operating urban CCR plus the statewide average capital CCR for each state.

B. Payment for transplant services is made under the Mississippi APR-DRG payment methodology including a policy adjustor. (Refer to Appendix A.) If access to quality services is unavailable under the Mississippi APR-DRG payment methodology, a case rate may be set.

1. A case rate is set at forty percent (40%) of the sum of average billed charges for transplant services as published in the *Milliman U.S. Organ and Tissue Transplant Cost Estimates and Discussion* in effect as of July 1, 2019. The transplant case rates are published on the agency's website at https://medicaid.ms.gov/providers/fee-schedules-and-rates/.

2. The *Milliman* categories comprising the sum of average billed charges include outpatient services received thirty (30) days pre-transplant, procurement, hospital transplant inpatient admission, physician services during transplant and one-hundred eighty (180) days post (transplant) discharge. Outpatient immune-suppressants and other prescriptions are not included in the case rate.

this calculation, the DRG base payment is net of any applicable transfer adjustment (see Section J of this chapter).

Stays assigned to mental health DRGs are not eligible for cost outlier payments, but may qualify for a day outlier payment if the mental health stay exceeds the DRG Long Stay Threshold (see Section I of this chapter and Appendix A).

1. Cost-to-Charge Ratio – The inpatient cost-to-charge ratio used to pay inpatient cost outlier payments will be calculated as noted in Section 2-1, H.

2. Requests for Change in Inpatient Cost-to-Charge Ratio

   Changes Due to a Certificate of Need (CON) - A hospital may at times offer to the public new or expanded services, purchase equipment, drop such services, or retire equipment which requires (CON) approval. Within thirty (30) calendar days of implementing a CON approved change, the hospital must submit to the Division of Medicaid an allocation of the approved amount to the Medicaid Program. This amount must be separated as applicable between capital costs, educational costs and operating costs. The budget must show an estimate of any increase or decrease in operating costs and charges applicable to the Medicaid Program due to the change, as well as the effective date of the change. Such amounts will be subject to desk review and audit by the Division of Medicaid. Allowance for such changes shall be made to the hospital's inpatient cost-to-charge ratio as provided elsewhere in

R. Long-term Ventilator-dependent Patients Admitted Prior to October 1, 2012

Payment for ventilator-dependent patients admitted to the hospital prior to October 1, 2012 will continue to be reimbursed on a per diem basis until they are discharged from the hospital, the per diem in effect in the preceding year will be increased by the percentage increase. For hospitals with these patients, for rate years beginning October 1, 2012, and thereafter of the most recent Medicare Inpatient Hospital PPS Market Basket Update as of October 1 of each year as published in the Federal Register. All patients admitted to a hospital on or after October 1, 2012 will be reimbursed under the APR-DRG methodology.

S. Post-Payment Review

All claims paid under the APR-DRG payment methodology are subject to post-payment review.

T. Payments Outside of the DRG Base Payment

The following payments are made outside of, and in addition to, the DRG base payment: Long Acting Reversible Contraceptives (LARCs) and their insertion at the time of delivery will be reimbursed separately from the APR-DRG payment. A separate outpatient claim may be submitted by the hospital for reimbursement for LARCs and their insertion at the time of delivery. Reimbursement for the insertion of LARCs at the time of delivery will be based on the Physician Fee Schedule effective July 1, 2023, and updated annually as described in Attachment 4.19-B. The LARC will be reimbursed at the lesser of the provider's usual and customary charge or the fee listed on the Physician Administered Drugs and Implantable Drug System Devices Fee Schedule effective July 1, 2023, and updated quarterly as described in Attachment 4.19-B. All fees are published on the Division of Medicaid's website at https://medicaid.ms.gov/providers/fee-schedules-and-rates/.
