Enrollment in the Healthier Mississippi Waiver started Jan. 1 2006.

Effective July 24, 2015, the maximum number of individuals who can be enrolled in this waiver may not be more than 6,000 at any given time. If enrollment reaches 6,000, the waiver is closed to enrollment until the number of individuals enrolled is fewer than 6,000.

Who is Eligible?

To qualify for the Healthier Mississippi Waiver, you must meet the following eligibility criteria:

- You cannot be covered by or entitled to Medicare (certain conditions apply).
- You must be age 65 or older.
- If you are under age 65, you must have a disability using the same rules as the Supplemental Security Income (SSI) program.
- You cannot be pregnant.
- Your total monthly income can be no more than 135 percent of the federal poverty level.

WHAT IS MEDICAID?

Medicaid provides health coverage for eligible, low income populations in Mississippi. Eligible members do not directly receive money from Medicaid for health benefits. Medicaid is separate from Medicare.

Income Limits

Total monthly income can be no more than 135 percent of the federal poverty level:

- \$1,745 per month for an individual, or
- \$2,350 per month for a couple.

For couples, income is calculated using income of both members of the couple, even if only one member is applying. If any household income is from wages, the allowable income limit is higher.
